

How Can I Find Out if a Grant Program is a Discretionary Grant Program?

Discretionary grant programs will be marked "competitive."

If you are viewing the grant announcement on the grant making agency's website, you can find it under the "Solicitation Type". The following grant came from BJA's website. The pictures show the different types of solicitations.

If you are trying to find the information in a PDF grant solicitation, you can find it in the title and sometimes in the program description. See below.
